

MATTIAS NYSTRÖM

Occupational Health & Safety Professional | High-Risk Operations

Melbourne, VIC | Open To Travel | mattias@mattiasnystrom.com | [Linkedin.com/in/mat7ias](https://www.linkedin.com/in/mat7ias) | mattiasnystrom.com
Citizenship: Australian Citizen | Full Victorian Driver's Licence

SUMMARY

Occupational Health & Safety Professional bridging the gap between frontline high-risk execution and boardroom strategy. Combining an academic foundation in Environmental Science (Unimelb) and current advanced OH&S studies (RMIT) with years of global operational management across Europe. Proven ability to manage multimillion-dollar reporting processes, build structured compliance workflows, and lead distributed teams. Currently operating in high-risk environments with active competencies (Working at Heights, EWP, Traffic Control) to ground safety management theories in practical, frontline reality.

CORE COMPETENCIES & SKILLS

- **Safety Management & Analysis:** Hazard Identification & Risk Profiling, Root Cause Analysis, Critical Control Management, Safety-II Frameworks, Incident Investigation & Reporting.
- **Operational Leadership:** Cross-Functional Team Coordination, Workflow Optimization, Stakeholder Engagement, Remote Workforce Management, Structured Compliance Auditing.
- **High-Risk Field Execution:** Dynamic Site Hazard Response, Elevated Work Area Safety, Telecommunications Decommissioning, Environmental Monitoring & Quality Control.
- **Systems & Technology:** Process Documentation, Digital Permit-to-Work Systems, Data Collection & Spatial Awareness, Microsoft 365 / SharePoint.

Languages: English (native), Swedish (fluent), Norwegian (proficient), German (basic), Polish (basic)

EXPERIENCE

Braetex Electrical Contractors | Metro Melbourne

High-Risk Infrastructure Technician

12/2025 – Current

- Execute complex, high-risk telecommunications infrastructure decommissioning (Optus Data Decommissioning project) within live, dynamic environments, maintaining strict adherence to SafeWork guidelines.
- Actively manage high-risk variables including Working at Heights, EWP (Elevated Work Platform) operations, and live-traffic corridor controls.
- Bridge the gap between written safety procedures and frontline execution, actively identifying operational friction points to maintain absolute safety in highly variable weather and site conditions.
- Utilize frontline execution to ground ongoing tertiary OH&S studies (RMIT) in practical, real-world risk management.

Independent projects & Zurich-Australia relocation preparation

02/2025 – 11/2025

- Managing relocation from Switzerland to Australia and updating all WHS and industry-required training
- Completing White Card and additional safety short courses
- Maintaining peak physical and technical readiness to support high-risk operational demands
- Building technical discipline through hands-on projects and structured daily routines

Golem Foundation (Octant) | Zug, Switzerland

Partnerships Officer

09/2023 – 01/2025

- Built structured workflows improving accuracy and compliance under pressure.
- Coordinated over 90 partner projects, ensuring data accuracy, reporting, and accountability while maintaining safety and process discipline in remote work environments.
- Managed operations across multiple time zones and remote teams with strict process discipline.
- Known for reliability, attention to detail, and consistency under pressure.

SwissDAO | Zurich, Switzerland

Marketing Manager

05/2023 – 12/2023

- Delivered consistent daily outputs and met strict deadlines across multiple channels.
- Coordinated small teams and external partners to run structured community programs.
- Built reliable systems for tracking performance and maintaining accurate reporting.
- Demonstrated accountability, planning, and attention to detail in remote work settings.

Golem Factory GmbH (Golem Network) | Warsaw, Poland

03/2020 – 10/2022

Head of Community // Head of Communications

12/2021 – 10/2022

- Coordinated distributed teams across multiple time zones, ensuring clear communication and task completion.
- Built and maintained structured workflows that improved accuracy and reduced operational delays.
- Managed reporting processes under high accountability and tight schedules.
- Supported colleagues in remote environments through disciplined planning and consistent follow-up.

Community Manager

03/2020 – 12/2021

- Oversaw data accuracy across key public listings and documentation.
- Administered a long-term rewards program with transparent tracking and reporting.
- Worked closely with technical teams to meet project deadlines safely and efficiently.
- Produced onboarding guides and process documentation to maintain team consistency.

Community Helper // Technical Support

07/2018 – 08/2020

Raiden Network | Melbourne, Australia

- Helped coordinate online and in-person developer activities, focusing on process, reliability, and accuracy.
- Developed strong communication and teamwork skills working across cultures and time zones.

EDUCATION

Graduate Certificate in Occupational Health & Safety (GC035)

Expected Completion: Late 2026

RMIT | Melbourne, Australia

Bachelor of Environments, Environmental Science

07/2013 – 12/2017

The University of Melbourne | Melbourne, Australia

LICENCES & TRAINING

- Elevated Work Platform (EWP - Over & Under 11m)
- Traffic Control (Utilities)
- First Aid / CPR
- Electrical Spotter & Power Awareness
- Working at Heights
- C Class Manual Driver's Licence (VIC)
- White Card (CPCWHS1001)
- Digital Working With Children Check card

PROFESSIONAL DEVELOPMENT & CONTINUOUS LEARNING

- Strong technical curiosity with hands-on learning approach
- Experienced with digital tools, structured documentation, and data systems
- Independently maintain technical projects requiring accuracy and troubleshooting

VOLUNTEERISM & COMMUNITY ENGAGEMENT

Advisory Board Member

08/2019 – 08/2022

Raiden Trust | Melbourne, Australia

- Served on a small advisory board overseeing project funding and community development.
- Provided input on process integrity, communication, and accountability.
- Collaborated with other members to support transparent decision-making and responsible fund management.
